Choose the Right Level of Corrosion Protection  
Visit [www.strongtie.com/info](http://www.strongtie.com/info) for critical information.

**LOOK FOR THE "Z" AT THE END OF THE MODEL NUMBER**  
The minimum level of protection recommended for deck projects. A heavier zinc coating for exterior and preservative-treated-wood applications. Must use HDG nails or Strong-Drive SDS/SD structural-connector screws.

**LOOK FOR THE "SS" AT THE END OF THE MODEL NUMBER**  
Stainless-steel connectors for the most corrosive environments and applications. Must use type 316 stainless-steel fasteners.

**NOTE:** Illustration shows all available patio-cover products. Actual products selected will depend upon application or construction method used for a particular patio cover. Check local building codes before you begin a project.
